Thank you for your reception report...

Enclosed is a reception verification card, a copy of our log for comparison with your reception report, and a coverage map for your collection.

The reports we received indicated that reception was made difficult due to programming by WNOX, unscheduled testing with tone by an unidentified station, and an unidentified station broadcasting in Spanish.

Our thanks to the membership of the National Radio Club for the detailed reports and especially to Carl Dabelstein of the NRC for coordinating the test. Listed below are verified reception reports received to date:

Thanks for your report and your comments. Our FM station is WNNO-FM and simulcasts the AM most of the day. We changed the call letters because of the tourism in the area--people visiting our area remembered our call letters, but couldn't find us on the dial. The 'NNO' in WNNO stands for the AM frequency of 'Nine-Nine-Oh', and we've found since that change that more people know right where to find us on the AM dial. Now our only problem is to work in the 107.1 of our FM! Again, thanks for your comments.
